Dehradun, Uttarakhand

PROJECTS

Uploadit 📄 | React.js, Next.js, TypeScript

- UploadIt is a fast and secure storage solution for images, documents, and media, developed using Next.js, React.js, TypeScript, and Appwrite for backend services.
- It features debounced search functionality to improve efficiency by limiting search requests, along with OTP email verification for added security.

PropertyZone 📄 | React.js, Node.js, Express.js, MongoDB

- Developed a user-friendly platform enabling users to list their properties for rental or sale.
- Employed React.js for the frontend, while utilizing Node.js, Express.js for the backend, and MongoDB for the database.
- Implemented secure authentication using JWT Tokens and Google OAuth for sign-in also incorporated a robust search functionality.

Foodie App UI 📄 | React.js, Redux

- Created a user-friendly foodie app interface with Tailwind CSS and ReactJS, employing Redux Toolkit for seamless state management. Also applied engaging interactions and animations.
